

On October 22<sup>nd</sup> Precision Transmission proudly hosted United Rentals for a second open house and basic overhaul with troubleshooting training on ZF axles at our Florida location. Twelve technicians from United Rentals branches throughout Florida were in attendance.

*Above*, Rick Tapia and Henry Coker from Precision demonstrate the proper pressure testing procedures on a ZF MS-T 3060 axle.

*Below*, Henry from Precision demonstrates the proper clearances for the brake housings on a ZF MS-T 3060 axle after a question and answer segment.

*Above*, Common problems arise from improper shaft seal replacement therefore; Rick from Precision demonstrates the procedures for installing shaft seals properly.

*Below*, The technicians from United Rentals took a group picture with our technicians Rick Tapia and Henry Coker as well as our branch manager, Steve Snyder.

If your company is interested in attending a similar open house and training session; please feel free to contact us!
